IGNACIO, CHASHMYR

Project Title:

Thesis Archiving and Research Publication
Repository
System

RELEASE NOTES

Application for 90%, Version # 1

Approved by:

Engr. Eutequio III Zante L.
Palermo

Ms. Jullene Jane
Evangelista

NEW FEATURES	FOR IMPROVEMENTS	FIXES
<i>To be enumerated here are those that are not yet added in the previous iteration</i>		

Test no.	Test	Expected Result	Pass/Fail	Corrective action
1	Session handling	The system preserves the user's authenticated session even when the application page is refreshed, preventing unintended logout. Additionally, any data entered into forms on the current page is retained after refresh, ensuring continuity of user input.		
2	Overall Run Test	Verify that all system users and their respective functionalities are operating correctly, ensuring that each user role can access, interact with, and perform actions within the system as intended without errors.		

Additional Feature: *(those not mentioned in the approved proposal)*

DCPE FORMS 6, VERSION 1
